Reporting What God Is Doing

Acts 14:27 NIV

Thank you for your prayers, encouragement and financial gifts. Your partnership has helped all of us at WWLAB assist those serving in medical missions in over 100 countries around the world.

Rejoice with us for the impact that God has allowed this ministry to have throughout the world for **20** years!

TO GOD BE THE GLORY!

Celebrating 20 Years Of Service

Notes from the field –

From a nurse serving at Samuel Seidu Memorial Clinic in Ghana after we sent a replacement microscope part

"The blue lens arrived about 3 weeks ago and we are very thankful to be able to do our lab tests again. Thanks so very much for your help in this matter. . . You have been an encouragement and blessing to me and I thank you for your technical support. THANKS!"

From Hospital Bautista in Honduras after consulting with WWLAB staff about equipment

"Thank you so much. You have been a blessing for me."

From Adventist Hospital in Haiti after several shipments of urgently needed supplies

"...All of these projects will not happen without your help. God bless... We used the last QBC tube last night on a patient admitted with undiagnosed disease. It turned out to be acute leukemia. You are a life saver...How can we ever thank you..."

From a short-term physician serving in Honduras

"Thank you for the lovely and amazing and much needed service you provide for the clinic!"

From Annoor Hospital in Jordan after we sent instructions to fix an analyzer problem

"Thank you very much for your information. It solved the problem. The doctors are so happy to have all lab tests again and I am also very grateful for your help."

From a physician serving at Trees Clinic in Cambodia

"Thanks for the time you invested in helping me track the problem down....I really appreciate that you had my back! ...You are an integral part of the medical ministry and Kingdom extension work!"

Be sure to check our blog often as Cindy Borody tells the stories of on-site projects with pictures and interesting reports of what was accomplished! Type this into your browser to enjoy a tour: worldwidelabimprovement.blogspot.com
